Professional Summary

Junior DevOps Engineer and Cloud-focused Computer Science student with hands-on experience in Linux administration, Docker, AWS cloud services, CI/CD pipelines, and application deployment. Skilled in containerizing applications, managing cloud infrastructure, automating deployment workflows, and configuring production environments using AWS EC2, RDS, Docker, GitHub Actions, Nginx, and Linux servers. Passionate about DevOps practices, infrastructure automation, cloud technologies, and scalable system deployment.

Technical Skills

- **Cloud & DevOps:** AWS EC2, AWS S3, Docker, Docker Compose, CI/CD, GitHub Actions
- **Linux & Servers:** Ubuntu Linux, Nginx, SSH, Server Deployment, System Configuration
- **Backend:** PHP, Laravel, REST APIs
- **Version Control:** Git, GitHub
- **Database:** MySQL, Amazon RDS
- **Tools:** Postman, Composer
- **Automation:** n8n Workflow Automation

Projects

- | | |
|---|----------------|
| Student LMS Dockerized Deployment Project | 2026 |
| <ul style="list-style-type: none">• Dockerized a Laravel-based Student Learning Management System (LMS)• Configured multi-container architecture using Docker Compose• Integrated PHP, MySQL, and Nginx in isolated containers• Implemented Docker networking for service communication• Used Docker volumes for persistent database storage• Created environment-based configuration for development and production | |
| Laravel Application Deployment on AWS | 2026 |
| <ul style="list-style-type: none">• Deployed Laravel application on AWS EC2 instance• Integrated Amazon RDS MySQL for database management• Configured Nginx and Linux server environment for hosting | |
| React Application Deployment with Docker & CI/CD | 2026 |
| <ul style="list-style-type: none">• Containerized React application using Docker• Built CI/CD pipeline using GitHub Actions• Automated deployment workflow on AWS EC2 | |
| Lead Generation Automation System (FYP) | 2025 – Present |
| <ul style="list-style-type: none">• Developed automated lead generation workflows using APIs• Implemented workflow automation using n8n• Built backend pipelines for business data processing | |

Experience

- | | |
|---|----------------|
| Junior DevOps Engineer (Freelance Projects) | 2026 – Present |
| <ul style="list-style-type: none">• Developed and deployed Laravel-based web applications• Worked with REST APIs, authentication systems, and backend integrations• Managed Linux servers and application deployment workflows• Implemented Docker-based deployment environments | |

Education

BS Computer Science

PMAS-Arid Agriculture University, Rawalpindi
CGPA: 3.3

2022 – Present

Languages

English, Urdu, Punjabi
